Request to testify at the public hearing on immigrant driver's licenses in the state of Ct.

Good afternoon, my name is Viviana Hernandez.

I am here to support this proposal because it would give us more security and confidence when driving.

It would also be a way out to our jobs without fear.

One of the most important things that one would be to have an accident would not try to run away and we are left to deal with things.

I do not have a license I been through a lot in order to register and have my insurance.

Having the license I would be responsible for my own car.

The community would be safer because we could identify to a police officer and they have access to our record.

Thank you very much,

Viviana Hernandez
